

Archaeological Field Technicians **Denver, Colorado; Sheridan, Wyoming**

SWCA Environmental Consultants is a growing employee-owned consulting firm specializing in environmental regulatory compliance, natural resource management, cultural resource management and related research. We are a Top 500 Design Firm and Top 200 Environmental Firm according to the latest *Engineering News-Record* rankings. SWCA is a company of biologists, geologists, archaeologists, paleontologists and planners with more than 25 years of experience over 450 employees located in 22 offices throughout the U.S. and the Pacific Islands. We offer an informal, team-oriented work environment, competitive salaries, and a competitive benefits package, including a stock ownership plan. SWCA is actively seeking to fill one or more Cultural Resources Technician positions within our Cultural Resources Program for our Denver and Sheridan offices. These positions will include travel and support of our Billings, Montana, Fort Collins and Durango, Colorado, and Bismarck, North Dakota locations. The potential for permanent transfer to these other locations may be possible if the successful candidate is interested. These positions are hourly and the candidate will typically work 40 hours per week depending on workload. Overtime is possible. Pay rate will be based on individual qualifications and experience. The possibility exists for promotion into full-time, benefited positions.

Job Duties and Responsibilities:

Responsibilities of a Field Technician include:

- Working in the field under the supervision of Field Supervisors in the performance of archaeological fieldwork;
- Conducting archaeological monitoring, survey, testing and data recovery;
- Contribution to team efforts during cultural resources field and lab work;
- Taking initiative, resolving problems, and creating improved procedures to assure tasks are completed in the most effective manner;
- Assisting with mapping responsibilities in the field, including collection of GPS data using Trimble units (knowledge of ArcPad is a plus)

Qualifications:

Knowledge and experience with archaeological survey and excavation techniques and methodology is required. A Bachelor's Degree in anthropology, archaeology, or a closely related field is preferable. Knowledge of historic cultural resources is also a plus. Field school or equivalent experience is also required. Candidates must be able to travel and be able to conduct fieldwork for long hours, sometimes in inclement weather conditions, often in rugged terrain and sometimes at high altitudes, and be able to carry equipment and supplies weighing up to 40 pounds. When project travel is required, per diem is currently \$39/day, hotel room accommodations and field vehicles are provided, and project travel time is paid.

How to Apply:

These positions will remain open until filled. Please send a cover letter, resume and three (3) professional references to:
