

CCPA NEWSLETTER VOLUME 4 NUMBER 1

COSA NUMBER 10

1 FEBRUARY 1981

---

PUBLISHED BY  
COLORADO PRESERVATION OFFICE  
AND  
CCPA

The Editor has provided this opportunity to introduce myself as your new State Archaeologist and Deputy State Historic Preservation Officer. I am the fourth person to assume responsibilities of the first position, and the first in the reorganized second chair. If requirements of both roles involve evolving a dual personality, it may be helpful to know my "jacket" size.

The position of State Archaeologist has experienced the developmental benefit of three unique people. The history of anthropology will contain Jim Hester as a repeated innovator. It is our fortune that he was available to initiate the position. It has subsequently grown to a point of national ascription in the hands of Bruce Rippeteau. Very few anthropologists possess the collective traits of architect, builder, and businessman. Colorado is currently in debt to Howard Pomerantz for maintenance of the position in transition. I respect his personal fiber and wisdom of perspective as Acting State Archaeologist during a time of major reorganization.

The concept of Deputy State Historic Preservation Officer is new in Colorado. There are presently two Deputy positions; one for History and Administration and one for Archaeology. Jim Hartmann brings several years of State experience to the former. I chair the latter as a newcomer, and hope the Colorado Preservation Office will benefit from fresh blood. In this respect, my advice to Arthur Townsend will be geared toward an integrated behavioral science approach to cultural resource management.

I have been chosen as your Deputy State Historic Preservation Office/State Archaeologist at the beginning of my 18th year in Anthropology. Those years are categorically summarized at the close of this introduction. Briefly, there are two areas in my background that have direct bearing on this dual position. First, my education and experience began well before the advent of NEPA. My subsequent development in cultural and natural resource conservation has evolved with major changes in federal legislation. That historic perspective helped me anticipate current state and federal trends by designing efficient compliance models from Maine to California.

Second, I have worked in the greater southwest for the last ten years as a field archaeologist and administrator. During that period, I have interfaced with project applicants and lead agencies at all planning levels. Those efforts included the fields of seismology, paleontology, prehistory, history, historic architecture, and contemporary Native Americans. My most recent experience in corporation anthropology involved regional participation in public hearings, joint project workshops, and litigation preparation.

I am now prepared for a longterm commitment to developing, implementing, and administering Colorado conservation programs. Your ongoing support will be appreciated as much as it shall be needed.

Emerson L. Pearson

Curriculum Vitae  
(Abstract)

EMERSON L. PEARSON

EDUCATION

B.A. 1967 Anthropology, State University of New York, Buffalo  
M.A. 1968 Anthropology, State University of New York, Buffalo  
Ph.D., A.B.D. 1971 Anthropology, University of Colorado, Boulder

EXPERIENCE

Employment:

1963-67 S.U.N.Y. at Buffalo, granted excavations of archaeological sites in western New York.  
1964-69 New York State Museum, highway salvage archaeology of southern, central, and western New York.  
1968-70 State of Maine, instructorships in anthropology at Nason College and University of Maine; State Archaeologist (R.S.T. 27, c. 13, sub-c.II, paragraph 373, sub-paragraph 4).  
1970 University of Colorado, British Columbia archaeological and paleoecological expedition.  
1971 California State College, California, Pennsylvania, director of archaeological laboratory, ageing, sexing, and initial pathological determination of in situ infant human burials,  
1972 Museum of Northern Arizona, Flagstaff, archaeological project director.  
1973 University of Texas, Austin, Research Scientist, Texas Archaeological Survey, Balcones Research Center.  
1975-76 Pueblo of Zuni, New Mexico, supervisor of Zuni Archaeological Conservation Team and Coordinator of Archaeological Research for Zuni Nation.  
1976-78 Southern California Edison Company, Rosemead, California, Corporation Archaeologist.  
1978-present Corporation Consultant, cultural resource conservation in California, Arizona, New Mexico, and Texas.

Selected Publications:

1968 Geocultural Survey of the West Mexican Marismas Nacionales. State University of New York, Buffalo.  
1972 Wisconsin Ice Age and Origin of Paleo-Indian Clovis Complex. Io (Earth Geography Booklet No. 2) 13:11-50.  
1975 Archaeological Investigation at Fort McKavett. Archaeological Completion Report Series, No. 2, Office of Archeology and Historic Preservation, National Park Service, U.S. D.I., Washington, D.C.  
1978 Cultural Resource Management: an Ethnological Perspective. Abstracts, Society for California Archaeology.

PROFESSIONAL ASSOCIATIONS

American Anthropological Association, American Quaternary Association, Society for American Archaeology, Society of the Sigma Xi.

NEWS AND NOTES

ANNOUNCEMENT

- 1) Arthur Townsend has announced the appointment of Emerson Pearson as State Archaeologist. Mr. Pearson assumed the duties of the office on 5 January 1981.

Howard Pomerantz will be assuming the duties of modelling and simulation of locational patterning in Colorado with the ultimate purpose of developing a management/research tool for use by archaeologists and historians.

KOEHLER SITE EXCAVATIONS

- 2) The Colorado Archaeological Society under the direction of Howard Pomerantz conducted test excavations at 5MR390 the Koehler site. This is a deeply buried campsite with associated bone concentrations which appear to be evidence of individual kills. No bone bed is evident. One lithic concentration was discovered in association with a "hearth" feature (fire cracked rock, burnt bone and charcoal) but no diagnostics were recovered.

Six two x two meter squares were opened in an overall site area measuring approximately 100 meters by 25 meters. Palynological, radiometric and samples for thermoluminescent dating were taken and some of the radiometric samples have been sent off for analysis.

The shallow nature of the hearth-like features (five on the surface scattered over the site area) their apparent lack of rock linings as well as the lack of associated cultural material indicates an early date for the site which is estimated at being no later than Archaic and possibly Paleo. However, the appearance of manos (fire cracked) points to an Archaic single occupation camp.

The deposit is approximately 15 to 20 cms in depth in a sand matrix (dunal environment 10 m below the present surface, but does not appear to have been subject to previous disturbance by natural erosion). The primary association of charcoal and ash with the "hearths" argues for this interpretation. Although strata above the cultural deposit show indications of various fluvial and aeolian events of down cutting and redeposition, there is no evidence of this process extending into the cultural horizon which appears to have been deposited on an ancient surface.

The site was discovered by Don Koehler, the Morgan County Engineer, in the process of expansion of the Morgan County Landfill. We are deeply indebted to Mr. Koehler for his cooperation in reporting the site and his continuing aid in enabling test excavations to be carried out.

A special note of thanks is due Ray Scott, President of the Denver chapter of CAS for his organization of the team which conducted the tests and especially to the CAS members who came out on such short notice to aid us.

Also, Stafford Crossland of the Morgan County Museum deserves a special thanks for notifying CPO of the site and providing aid and funding sources for the analysis of the materials.

#### CPO COMPUTERIZED SITE FILE

- 3) CPO announces the creation of a direct access computer search system for archaeological sites on file with this office (18,000 now on-line). The system is being expanded to cover historic properties as well. Access to the system is through a hierarchical security network which is handled through this office. Anyone with access to a terminal with phone coupler capability is welcome to apply for an account. Users are screened by CPO for necessity to directly access the system and if accepted will be provided with training and a manual. Typically it takes only about one hour of training to use the system.

Subscription fees have not been set but typically should be about \$60 - \$100 per year. Lease of terminals through CPO is possible.

#### GUIDE TO CRM PERSONNEL IN COLORADO ISSUED

- 4) The current directory of CRM personnel and institutions/firms/agencies in Colorado is available from CPO for \$2.00.

#### STATE PERMITS

- 5) Permits allowing the barer to conduct CRM investigations on State lands for the 1981 calendar year are being issued on a temporary six month basis while new guidelines and procedures are being developed. Everyone is reminded that you must reapply yearly for a permit. All permits expire at the end of the calendar year. Permit holders will be notified when the new guidelines are available.
- 6) Arthur Townsend has announced the appointment of O D Hand as the new PAAC coordinator to replace Linda Gregonis who has become the archaeologist in the Preservation Services Division of CPO.

#### PAAC NEWS

- 7) Since January, 1980, 9 seminars have been taught to the Denver, Pueblo, and San Juan Basin Chapters. Seminars taught included Basic Site Surveying Techniques, Colorado Archaeology, Prehistoric Lithic Analysis and Description, and Prehistoric Ceramic Analysis and Description. A total of 82 people are actively participating in the program. Of these, 44 have passed the Provisional Surveyor's exam. Five people have recorded four sites each and received their Provisional Surveyor's certificate (cited in the August issue of the Newsletter).

8) Hearing on Uniform Rules For '79 Act in Denver

At last, the long-awaited Proposed Uniform Rulemaking for implementation of the 1979 Archeological Resources Protection Act (PL 96-95) has hit the streets for review. Because these regulations are very important to our profession and our future, it behooves each of us to take a close look at them. Formal responses are in order through February. Last year many of us participated in the March 1980, Denver hearings anticipatory to development of these rules.

Hearings on the proposed rules will be held at the Denver Federal Center in Building 25. A tentative date of 14 March 1981 has been set.

If you need a copy of the Proposed Uniform Rulemaking, please contact Adrienne Anderson (234-2764) or Dave Stuart (234-6080).

9.) Society for Historical Archeology

The following information about the Denver 1983 Society for Historical Archeology meetings was passed out at the January 1981, meetings in New Orleans. Judy Halasi, Publicity Chairman for 1983, developed a poster display publicizing Denver and prepared handouts and questionnaires for the membership. The planning committee believes that good advance publicity is a way of maximizing attendance. Approximately 550 individuals registered in New Orleans.

10) CCPA Membership

If you are not a voting member of CCPA (either a Charter Member or Voting Member), be sure to get the necessary data to Steve Cassells, Chairman of the Membership Committee, (1048 Purdue, Longmont, Colorado 80501) as soon as possible so you can fully participate in the annual March meeting.

Each of you was sent a reminder of your status in our most recent (September, 1980) mailing. To become a voting member send a certified vitae and appropriate dues to Cassells and ask three voting members to support you with letters of recommendation to CCPA.

Remember, only CCPA members in good standing can vote!

11) 1981 Anasazi Symposium

Mesa Verde National Park and the Mesa Verde Museum Association will sponsor an Anasazi Symposium October 1, 2, and 3, 1981, in celebration of the park's 75th anniversary. The symposium, to be held at Mesa Verde, will consist of a morning and an afternoon session on each of the first two days and a morning session and summing-up on the third day. Field trips will follow.

Based on input from many of you, the following general topics have been selected: (1) Anasazi: Toward a reassessment and clarification. (2) Anasazi Origins: The Archaic, "Basketmaker I," beginnings. (3) Environment and the Anasazi: The role of Anasazi, active and passive. (4) Evolution of Anasazi Culture: Its success and its failures (population change and abandonment). (5) Anasazi and External Relations: Influence of and upon outsiders. Formal papers in each area will be presented, and there will be plenty of time for general discussion on each topic. There will be an open house at the remodeled Research Center and a tiswin and chuckwagon dinner.

A formal announcement of the symposium and program will be mailed early in the year. If you have any questions or suggestions, contact Dr. Jack Smith at Mesa Verde National Park (Mesa Verde, Colorado 81330, (303) 529-4510).

SOCIETY FOR AMERICAN ARCHAEOLOGY

COMMITTEE ON PUBLIC ARCHEOLOGY (COPA)

COPA State Representative: Howard Pomerantz

COPA MEMORANDUM

THE NATIONAL HISTORIC PRESERVATION ACT AMENDMENTS OF 1980

PASSED!!!

On 17 November 1980 H.R. 5496, the National Historic Preservation Act Amendments of 1980, passed the U.S. House of Representatives under unanimous consent. On 19 November 1980, it passed the U.S. Senate under the consent rule and was signed into law by President Carter on December 12th. It is PL 96-515.

The bill as passed is essentially as outlined in the COPA outline of 31 August 1980, without the provisions for transfer of historic properties to National Park Service jurisdiction, or for State inventories of natural areas. The new law was passed with the consent of the Reagan transition team and support of the new Senate Republican majority.

It:

- reauthorizes the Historic Preservation Fund through 1987 for \$150 million per anum
- integrates the needs of prehistoric and historic archaeology throughout the Federal historic preservation program
- codifies E.O. 11593, and the office and functions of SHPOs
- provides a 70:30 match for state survey and planning programs
- outlines Federal agency responsibilities for historic preservation
- provides a mechanism for administrative approval of data recovery projects in excess of 1% of construction costs
- requires professional representation of history, archaeology, and architecture on the Advisory Council
- plus many other things; check the Congressional Record for 19 December or request a copy of House Report 96-1457 from your Congressperson for the details and the section-by-section analysis

## Regional Research Design

The Department of Anthropology, University of Denver, in conjunction with CCPA, will host seminars for the Regional Research Design Committees during the month of February. The timing of these seminars is important, as they are intended to precede the CCPA meeting in March. The purpose of the seminars is to follow up on the proposals initiated at the last year's meeting. At a minimum, it is hoped that outlines of regional research designs will emerge from the seminars. Anyone not presently on an area's committee who wishes to be on that committee should contact Joe Lischka, University of Colorado (303/492-5126) or Mark Guthrie, Archaeological Research Institute, University of Denver (303/753-2406).

The following are the times and dates for the seminars. The committee will meet at the Anthropology Department, Pioneer Hall (on Evans Avenue) North Wing, Room 119, 1st floor.

Historic Committee - Feb. 13 & 14  
9:00 - 4:00

Jeff Kenyon, Chairman  
Joan Bleecher  
Bob Williams  
Tom Lincoln  
Jonathan Haas  
Floyd Patterson  
Bill Buckles  
Doug Scott

Southwest Committee - Feb. 20 & 21  
9:00 - 4:00

Paul Nickens, Chairman  
Mark Guthrie  
Frank Eddy  
Betty LeFree  
Jane King  
Jack Smith  
Dave Breternitz  
Al Kane

Northwest/West Central - Feb. 20 & 21  
9:00 - 4:00

Cal Jennings, Chairman  
Alan Reed, Chairman  
Kinzie Gordon  
Robert Alexander  
Brian O'Neill  
Harley Armstrong  
Beth Walton  
Bruce Jones  
Jenny Anderson

Rocky Mountain - Feb. 27 & 28  
9:00 - 4:00

Mike Metcalf, Chairman  
John Beardsley  
Brian Aivazian  
Jon Haas  
Chuck Wheeler  
Kris Kranzush  
Craig Engleman  
Tom Lincoln  
John Gooding  
Jim Benedict  
Mark Guthrie  
Bruce Jones

Eastern Plains (tentatively) Feb. 27 & 28  
9:00 - 4:00

Bill Butler, Chairman  
Mike Metcalf  
Judy Halasi  
John Beardsley  
Sarah Nelson  
Adrienne Anderson  
Larry Kingsberry  
Reed Farmer

CCPA Member Standing as of 31 December 1980

NOTE: Remember you must pay your 1981 dues before you can vote at the Annual Meeting.

CCPA ANNUAL MEETING

The annual meeting of CCPA will be held on Friday, March 6, and Saturday, March 7, 1981, at the Colorado Heritage Center, Denver. The following are a tentative schedule for the two days and a draft agenda of the business meeting. Please contact President Frank Eddy if you wish to add something to the agenda or to the program.

March 6, 1981 (Friday)

- 8:00 - 9:00 Registration and coffee
- 9:00 - 11:30 Business Meeting
- 11:30 - 1:00 Lunch
- 1:00 - 3:00 Continuation of Business Meeting
- 3:00 - 5:00 Committee Meetings
  1. Membership
  2. Ethics
  3. Legislative/Permitting
  4. AD HOC Committee on Report Standards
  5. Executive Committee
  6. Other

March 7, 1981 (Saturday)

- 9:00 - 10:00 State Permitting Procedures - Pearson
- 10:00 - 11:30 Statewide Research Design
  - sub-area reports and discussion-Lishka/Guthrie
  - 10:00 - 10:45 - Southwest (Nickens)
  - 10:45 - 11:30 - Northwest and West Central (Jennings/Reed)
- 11:30 - 1:00 Lunch
- 1:00 - 4:00 Continuation of Statewide Research Design
  - sub-area reports and discussion
- 1:00 - 1:45 Rocky Mountain (Metcalf)
- 1:45 - 2:30 Eastern Plains (Butler)
- 2:30 - 3:15 Historic (Kenyon)
- 3:15 - 4:00 Summation (Lishka)
- 5:00 - ? CRABS Meeting

DRAFT AGENDA\*

CCPA Business Meeting

March 6, 1981

- I. Call to Order
  - A. Quorum
  - B. Rules of the day - members/non-members
  - C. Introduction of State Archeologist, Emerson Pearson
  
- II. Minutes - Herold
  
- III. Officers' Report
  - A. Executive Committee - Eddy
  - B. Treasurer - Halasi
  
- IV. Standing Committee Reports
  - A. Nominations - Tate
  - B. Membership - Cassells
  - C. Ethics - Moore
  - D. Legislative/Permitting - Stuart
    1. Proposed Uniform Rulemaking for implementation of 1979 Archeological Resource Protection Act.
  
- V. Special Committee Reports
  - A. Newsletter - Pomerantz
  - B. Logo - Halasi
  - C. State Research Design - Lishka/Guthrie
  
- VI. Report from the Office of the State Archeologist - Pearson
  - A. AD HOC Committee on report standards - Pomerantz
  - B. Permitting - Pearson
  - C. Information storage/retrieval - Pomerantz
  
- VII. Unfinished Business
  - A. Bylaws: Censure, Membership Suspension Expulsion (proposed in August 1980 CCPA/OSAC Newsletter) Jennings/Weakly
  - B. Project Identification form
  - C. Survey standards - Niquette/Halasi

VIII. New Business\*

A. Late summer/fall meeting or field trip

IX. Installation of new officers

X. Announcements

- A. Hearings on Proposed Uniform Rulemaking for implementation of 1979 Archeological Resource Protective Act--March 14, 1981, Denver Federal Center, Building 52
- B. CRABS - March 7, 1981 - Sigstad
- C. Anaszi Symposium - October 1-3, 1981, Mesa Verde National Park
- D. 1983 Society for Historical Archeology Meetings - Anderson.

\*Contact President Frank Eddy for additions/changes.

## FOUR SUGGESTIONS

Four suggestions are submitted for discussion and possible action by the Colorado Council of Professional Archeologists at the next meeting.

### 1. Popular Narrative

Without question, we are not returning the benefits of our work to the people supporting us. It is proposed that we initiate, and help fund, the production of an annual popular narrative for distribution to schools, libraries and State officials.

We "tax" ourselves, say \$5.00 per contract or \$5.00 in additional dues. The money is placed in a special CCPA bank account and is used to help defray the cost of production and distribution.

Because the State Archeologist is aware of all cultural resource activities in the state, we should solicit his assistance in writing the narrative. He could write it himself and/or ask for assistance from CCPA members having expertise in certain areas, etc.

It is to our benefit, and a professional obligation, to produce such reports for the people of Colorado.

### 2. Radiocarbon Fund

Many projects are so vastly underfunded that radiocarbon dating is often excluded from any analysis. It is proposed that the CCPA set up a special fund for securing dates from sites/components that would contribute to our understanding of the prehistory of the state.

The fund would be administered by the CCPA Board of Directors and monies would be allotted as based on merit. Monies from this fund should not be used for contract work wherein C-14 analysis would normally be expected to have been included in a research design and budget. Nor should we establish a precedent wherein Federal, State or private organization will come to expect the CCPA to pick up costs for radiocarbon assay.

This fund is for special instances when there is no other source of funds for a date and it is recognized that the date would contribute to our understanding of the prehistory of Colorado.

Although this suggestion is for radiocarbon dates, we may wish to consider expanding it to include archeomagnetism, obsidian hydration, dendrochronology or other dating techniques.

### 3. Colorado Radiocarbon/Chronology Project

Last March I proposed we establish a file at OSAC for Colorado Radiocarbon dates. As you will recall, it was proposed that the CCPA consider paying for the printing of 4' x 6 cards to record this information. However, if the services of the OSAC computer could be attained, a regular paper form could be used to submit the information contained on the cards.

In addition to establishing a radiocarbon file, new dates could also be published in the CCPA Newsletter.

### 4. Bibliography

A constant problem to all archeologists working in Colorado is just trying to find out what has been going on in the state. It is proposed that all contract reports submitted to OSAC be accompanied by a 3 x 5 inch Bibliography Card. This card could also be submitted to the CCPA Newsletter editor for publication.

This proposal would require the assistance and approval of the State Archeologist if OSAC is to serve as a "bibliographic library".

The following basic information should be included on such a bibliographic card: Author(s); title; date; produced by; produced for; where copies are available; no. of pages, tables and figures; county; and descriptive terms such as "Archaic", "Franktown Focus", "houses", "survey", "excavation", etc.

Archeologists would still have to read the report but they at least would know of its existence and where they could get a copy.

Colorado Council of Professional Archeologists Field Trip

Southeastern Colorado, October 3, 4, 5, 1980

October 3, 1980, the beginning of a clear and comfortable fall weekend, 19 members of CCPA and an assortment of friends, families, and guides rendezvoused at Trinidad Lake to begin three days of sneezing in each other's dust and visiting some of the most unusual prehistoric architectural remains and rock art in the state. Cast aside for the weekend were contract deadlines, classroom commitments, and partially done reports. The purpose of this fall's CCPA field trip was to serve the camaraderie of our profession and acquaint us with some of the most poorly known prehistory of the state.

On the first day Caryl Wood led us to one of the few Sopris Phase, Purgatory Complex sites remaining above the shores of Trinidad Lake and explained the features of the site and its excavation history (refer to bibliography in last CCPA mailing). Then we drove to Trinchera Cave, the site of Caryl's 1976 Masters Thesis, for a good review of the area. We decided that something needs to be done with the rock art at the shelter to supplement Caryl's study.

Friday night Willard and Mary Ann Loudon guided us to the Howard Munsell Ranch, locus of the Snake Blakeleslee site (focus of Steve Ireland's 1968 Masters Thesis), where we camped for the night and shared a large bonfire. The following morning we bounced our way around the Apishapa Canyon, hiking to the Snake Blakeleslee site and many panels of interesting petroglyphs. We also viewed other, very unusual unnamed sites in the canyon that typify the Apishapa Focus.

After lunch on the road the group visited additional Apishapa Focus sites on the Red Top Ranch, courtesy of a rancher Bob Johnston, and saw some unusual pictographs on the roof of an unexcavated (and unvandalized) rock shelter on his land. Jenny Anderson made arrangements for this visit.

Saturday night found us camped on the shore of Lake Hasty, a small recreation lake immediately below John Martin Dam near La Junta, marshmallows and Somores, courtesy of the Bruce Rippeteau family were enjoyed by all. Our first stop Sunday morning was at a group of sand dune sites on John Martin reservoir's southern shores that were recently located by Science Applications, Inc. of Boulder. Later with Reid Farmer as our guide, we visited a vast array of petroglyphs--ranging from an Historic period three-masted "Prairie" schooner to late Woodland-appearing designs--on a large outcrop also on the southern shore of the reservoir.

To end the trip, Dave Stuart led us south through Toonerville, Colorado, to Hackberry Springs, a National Register site recently mapped and documented by members of the Colorado Archeological Society.

Then we headed for home; exhausted, exhilarated, and needing baths.  
 Participants were:

# Denver Chapter Colorado Archaeological Society

YOU'RE INVITED

January, 1981

Archaeology/Anthropology students and those interested in archaeology or related fields are invited to join the Denver Chapter/Colorado Archaeological Society on the excavation we are sponsoring in Las Animas County, Colorado in 1981. The excavation site is UPPER PLUM CANYON ROCK SHELTER I (5 LA 2158).

The project purpose is to contribute additional knowledge of early man in Southwestern Colorado. The excavation will be under the direction of Diane Rhodes, a student working on her master's thesis. Her academic program, as on-site archaeologist, will be reviewed by the University of Colorado at Denver, and the report will be published in Southwestern Lore. The Colorado Preservation Office archaeologists have agreed to be actively involved in the project.

## Excavation Dates.

The excavation will start on Saturday, May 23rd and will continue through Sunday, July 5th. The crews will arrive on a scheduled Saturday and leave the following Saturday (a week being the minimum sign-up time).

## Crews.

Crews must be members of the Colorado Archaeological Society in 1980 and 1981, or JOIN THE DENVER CHAPTER FOR 1981. This is the only cost to the excavators.\*

1981 dues: Individual \$15.00, Family \$22.00

\*Crews will be required to provide their own living facilities (campers, tents, etc.), personal tools, food, and transportation. Transportation pools are generally possible and many community "Special Meals" are planned in advance by the scheduled crews.

THE DENVER CHAPTER/CAS OR THE LANDOWNER WILL NOT BE RESPONSIBLE FOR ANY INJURY OR ACCIDENT TO A CREW MEMBER.

A variety of duties are offered: Photographers, recorders, excavators, screeners and laboratory work. Opportunities to examine other sites of cultural interest are scheduled in non-working hours.

Upper Plum Canyon Rock Shelter I offers an excellent opportunity to contribute knowledge and increase archaeological skills in a culturally rich area and the Denver Chapter would like to share this opportunity with others.

Make arrangements with Coordinators Don Nordstrom or Alice Hamilton by calling (303) 452-7174. All crews must be signed up by May 1, 1981.

Preliminary Program Ideas and Information  
about the  
1983 JOINT MEETING for the  
16TH ANNUAL MEETING of the SOCIETY FOR HISTORICAL ARCHAEOLOGY  
and the  
14TH CONFERENCE ON UNDERWATER ARCHAEOLOGY  
to be held in  
DENVER, COLORADO  
6-8 January 1983

Adrienne Anderson (NPS, Denver), the General Chairman, and the Planning Committee for the 1983 SHA Annual Meeting announce the preliminary program ideas for the meeting, sponsored by the National Park Service, the Bureau of Land Management, and the Water and Power Resources Service.

The program will emphasize the theme of the conference, "Heritage of the West", but will not exclude pertinent issues from east of the Mississippi. We suggest the use of chronological and subject-related sessions rather than geographic in order to maximize regional interrelationships and interaction. We envision the program mixing papers on theory, practice, and CRM.

We are now looking at four ways to contribute papers: (1) poster sessions; (2) films, including video tapes; (3) symposia or sessions for contributed papers; and (4) workshops.

At least four subject areas are under consideration for symposia or workshops:

- 1) Definition and Direction in Victorian Frontier Archaeology.  
This symposium(s) would consider various features of mining, ranching, urban, fur trade, and military frontiers in the total concept of the Victorian Frontier.
- 2) Contact Period American Indian Archaeology.
- 3) Interaction of Archaeologists, Architects, and Historians.
- 4) Conservation and Curation of Material Culture.

We invite your consideration of these topics and look forward to hosting the 1983 meeting for you. Please direct any questions to:

Adrienne Anderson  
General Chairman, SHA, 1983

Montrose, Colorado 81401

THE SOCIETY FOR HISTORICAL ARCHAEOLOGY

The Society for Historical Archaeology is a non-profit scientific-educational organization which aims to promote scholarly research in, and the dissemination of knowledge concerning historical archaeology; to exchange information in this field; to hold periodic conferences to discuss problems of mutual interest relating to the study of historical archaeology; and to obtain the cooperation of the concerned disciplines for projects of research. The focus of interest is the era since the beginning of exploration of the non-European parts of the world by Europeans, with prime concern in the Western Hemisphere. The Society also concerns itself with European, Oceanic, African, and Asian archaeology having a definite bearing upon scholarly problems in the Western Hemisphere.

The Society invites the participation and support of all who share its interest in history as it emerges from archaeological research and the study of written records. Membership is open to both professionals and interested laymen. An application form is provided below for those wishing to join.

Society Officers for 1981: Bert Salwen, President; Robert L. Schuyler, President-elect; Norman Barka, Immediate Past President; Stephanie Rodeffer, Secretary-Treasurer; Ronn Michael, Editor; Lester Ross, Newsletter Editor; Kathleen Deagen, Roberta Greenwood, Donald Hardesty, George Miller, Elizabeth Snow and Curtis Tunnell, Directors; Reynold J. Ruppé, Chairman CUA.

---
