

Archaeological Field Technician

Colorado, Wyoming
Job # 12449

COMPANY DESCRIPTION

TRC Companies, Inc., a pioneer in ground-breaking scientific and engineering developments since the 1960s, is an engineering consulting firm that provides services to the energy, environmental and infrastructure markets. TRC serves a broad range of clients in government and industry, implementing complex projects from initial concept to delivery and operation.

SECTOR OVERVIEW

Our Environmental Sector delivers comprehensive environmental solutions to meet the full project lifecycle needs of clients in renewable energy, oil & gas, transportation, and manufacturing industries. With one of the largest multimedia air and land permitting and compliance teams in the country, we support client success in manufacturing and industry, liquids delivery and processing, natural gas storage and delivery, power generation and delivery, and transportation projects.

POSITION SUMMARY

We are looking for individuals enthusiastic about their work with a strong commitment to client service and technical excellence. The successful candidate will enjoy the challenges of working alongside others and helping to develop effective solutions to both expected and unexpected project challenges.

The position will require regular travel away from home and some projects may require overtime and/or extended workdays and work weeks.

Candidates will be required to walk long distances and perform physically demanding tasks in varying environments and conditions (i.e. steep terrain, heat, cold). This is a part-time/as-needed position with the opportunity for full-time employment.

KEY RESPONSIBILITIES & TASKS

- Ensure the quality of archaeological data, fieldwork, and paperwork.
- Perform archaeological surveys, testing, data recovery, and monitoring.
- Complete tasks in a timely fashion; coordinate with project managers regarding project requirements and expectations.

QUALIFICATIONS, SKILLS AND ABILITIES

- A BA degree in Anthropology or a related field.
- Some archaeological field experience in the Rocky Mountains & Northern Plains is preferred, but not necessary.
- A commitment to quality and safety.
- A strong work ethic.
- One or more years of experience in archaeological surveys and/or excavations is preferred.
- Ability to think critically in the field.
- Familiarity with digital field technology (GPS, Trimble etc.) is preferred.
- A willingness to walk long distances and perform physically demanding tasks in varying environments and conditions (i.e. steep terrain, heat, cold, etc.).
- Applicants must be willing to travel, have excellent communication skills, and work well both on a team and individually.
- Must have a valid driver's license and be able to pass a motor vehicle records check.
- Candidates are required to successfully pass a drug test prior to employment or within five working days from date of hire in addition to a pre-employment check, physical, and motor vehicle records check.

COMPENSATION

- In accordance with Colorado state law, the following compensation range is applicable for the job and Colorado location associated with this requisition: \$18-\$25/hr. Compensation will vary based upon experience, education, skill level, and other compensable factors. This position will be based out of our Fort Collins, Colorado office.

BENEFITS

TRC offers the following benefits for this position, subject to applicable eligibility requirements:

- Medical/Dental/Vision/Life Insurance
- Paid holidays plus Paid Time Off
- 401(k) Plan and Contributions
- Long-term/Short-term Disability

EQUAL OPPORTUNITY EMPLOYER

TRC is an equal opportunity employer: disability/veteran. We celebrate diversity and are committed to creating an inclusive environment for all employees.
